1-Click Fast Funds

The Credit Union has a constant focus on making our lending as easy as possible. In the past few months, we have introduced a new loan product called 1-Click Fast Funds. Pre-approved members are introduced to the offer while logged in to online banking or the mobile app and they can easily accept the offer, sign documents, and have the funds deposited directly into their account immediately. The rollout of this product has been on a very small scale, but the Credit Union has further plans to continue to expand this product. This is yet another reason to be a mobile and online banking user!
